Navy Board Reports That One Should Be Built in This Harbor.

NEEDED IN EMERGENCY

Speedy Handling and Storage of Coal Necessary Under New Conditions.

Washington, Dec. 25 .- The Navy Board, of which Admiral Belknap was president, has made a report on the subject of coaling stations. In reference to New York, the report says in part:

"While the Government can doubtless be well assured of being well supported with coal at its great market at any or all times, this Board recommends for emergency cases and for economic and speedy handling and storage of coal the erection near the waters of Whitney Basin and East River, near the north angle of the basin, coal pockets of a capacity of not less than 5,000 tons, and a coal tower to handle 100 tons per hour, together with rallway tracks radiating from such point to different sections of the water from and to the various boller plants in the, yard."
